

Apresys Night Vision Scope 280550

Night Vision monocular 28-0550 with was designed to provide enhanced viewing capabilities in low light conditions, including complete darkness. Night vision does not require additional light source, although an integrated hazard-free infrared (IR) illuminator will greatly enhance the scope's effectiveness in complete darkness. Night vision scope is ideal for a variety of activities such as: Wildlife observation, Astronomy, Boating, Search, Rescue and Hunting.
