### *Technical data*

---

Unit weight	340 g (with battery)
-------------	----------------------

Dimensions	15.5 x 8.0 x 4.0 cm
------------	---------------------

Length of the cable probe	110 cm
---------------------------	--------

Power supply	1 x 9 V alkaline battery, type 6LF-22
--------------	---------------------------------------

Battery low indication	automatic
Keyboard	membrane
Power input	about 33 mA
Estimated working time on one battery pack	about 17h
Recommended working temperature	from 0°C to 60°C
Recommended storage temperature	from 5°C to 45°C
