Liquiphant FTL62 - the coated sensor for aggressive media

A level switch for aggressive and pumpable liquids

Benefits:

- Universal measuring principle for limit detection proven vibronic technology
- Developed according IEC 61508 for highest safety SIL2/3 applications (3rd party approved)
- Periodic proof testing is quickly and simple organized with guided wizards via the SmartBlue-App or via a test button or magnetic pin from outside. Via these ways, you can initiate the instrument for a fast and easy testing of the safety loop
- Heartbeat Technology allows safe, continuous diagnostics and a simple verification
- Heartbeat Diagnostics: Permanent diagnostics increase the safety of the plant. You connect your device via the SmartBlue-App and you easily have real time diagnostics at hand
- Heartbeat Verification: The device can be verified without process interruption. The verification report is generated automatically
- Heartbeat Monitoring: With the frequency tracking of the sensor data you have all information at hand for predictive maintenance and process optimization strategies

Specs at a glance

- Process temperature -50 °C...+150 °C (-58 °F...+302 °F)
- Process pressure absolute / max. overpressure limit
 Vacuum...40 bar Vacuum...580 psi
- Min. density of medium 0.5 g/cm³ (0.4 g/cm³ optional)

Field of application: Liquiphant FTL62 has a strong focus on specific applications with aggressive liquids and simplicity with easy proof testing, reliability and safety (SIL) with compliance to IEC 61508, API 2350 and

WHG. The vibronic device is determined for a safe and active measuring technology in aggressive liquids and want a reliable and proven point level detection for tank overfill prevention and pump dry run protection. The FTL62 is easy to use, has a digital connection and gives a real-time data at hand.

Features and specifications

Point Level / Liquids	Measuring principle Vibration Liquids
	Characteristic / Application
	Compact vibronic device with highly corrosion-resistant coating for
	aggressive media,
	Optional extension tube up to 3 m (9.8ft),
	Modular housing concept
	Specialities
	Heartbeat Technology,
	Bluetooth [®] Operation and maintenance SmartBlue App,
	LED Module,
	RFID TAG for easy identification,
	Second line of defense
	Temperature spacer for high process temperature,
	Plug and play functionalities
	Supply / Communication
	19253V AC / 2-wire,
	1055V / DC-PNP 3-wire,
	920V DC with relay DPDT,
	19253V AC or 1955V DC with relay DPDT,
	2-wire NAMUR,
	2-wire PFM
	Ambient temperature
	-60 °C+70 °C
	(-76 °F+158 °F)

Point Level / Liquids

Process temperature

-50 °C...+150 °C (-58 °F...+302 °F)

Process pressure absolute / max. overpressure limit

Vacuum...40 bar Vacuum...580 psi

Min. density of medium 0.5 g/cm^3 $(0.4 \text{ g/cm}^3 \text{ optional})$

Main wetted parts

ECTFE, PFA (Edlon, RubyRed or conductive) 316L Enamel

Process connection

Flanges: DN25...DN100 ASME 1"...4" JIS 50A

Sensor length

Up to 3 m (9.8 ft)

Communication

2-wire direct load DC-PNP 3-wire Relays NAMUR PFM Bluetooth[®] wireless technology

Certificates / Approvals

ATEX, IEC Ex, NEPSI, EAC Ex

Point Level / Liquids

Safety approvals Overfill protection WHG SIL2/SIL 3 according to IEC 61508

Design approvals

EN 10204-3.1 ASME B31.3 Process Piping CRN

Marine approval

ABS/ LR/ BV/ DNV GL

Options

Ambient temperature down to -60 $^{\circ}$ C (-76 $^{\circ}$ F), Heavy duty stainless steel housing

Components

FTL325P Interface PFM FTL325N Interface NAMUR
