

## MHT-20 Temp & Humidity datalogger

Package includes:

- Main unit
- Battery
- User's manual
- software
- Cover
- Mounting bracket
- screws x2

### Overview:

MHT-20 is an accurate heavy duty meter that monitors and logs the ambient temperature and relative humidity.

The device can be easily installed in storages, libraries, industrial freezers, green houses, etc and be used as both a monitor of temp & humidity and a long time datalogger.

The recorded data can be downloaded on pc via USB port and using the software of the device.

### Features:

- Small pocket size
- Tiny monitor
- Reliable wide range of measuring
- Light Alarm
- Low power indication
- High alarm value, lower limit alarm value
- Less than one minute response time

Parameter	Values
Temperature range	-30~80 ° C
Temp accuracy (Typical)	±0.4°C
Repeatability (Temp)	±0.1°C
Long term drift (Temp)	<0.04°C/year
Humidity range	0-100% RH
Humidity accuracy (Typical)	±2%
Repeatability (Humidity)	±1%
Long term drift (Humidity)	<0.5 %RH/year
Recording capacity	32256 readings
Alerts	Maximum, minimum
Sampling time settings	yes
Temperature unit	°C/°F
Weight	49g
Power supply	1 / 2AA3.6V lithium battery
Dimensions	126 * 28 * 22mm
