

MLM-200 Laser Level Meter

Overview:

MLM-200 is a self-leveling cross line level meter that helps the operator find out the exact vertical and horizontal level.

The bright laser beams of the device are visible even during the daylight and being fast response and easy to operate makes the device an ideal tool for both experts and the once in a while users. The clamp makes the device almost attachable to everything.

Features:

- Robust over-molded housing
- Ultra bright laser beams
- Allows all possible applications
- Water/debris protected
- Full-time pulse mode
- Central locking mechanism helps protect internals
- Innovative design

Parameter	Values
Laser Class	Class 2
Laser Wavelength	635nm±5nm
Horizontal/ Vertical Accuracy	±3mm/15m
Up Beam Accuracy	3mm/15m
Down Beam Accuracy	4.5mm/15m
Self-leveling Range	4° ±1°
Self-leveling Time	≤3s
Working distance (Dot)	30m ≥55m with detector
Working distance (Line)	30m ≥55m with detector
Operating Time	16h (all lasers on)
IP	54
Light source & output power	H / V 20mW Red Light
Line accuracy	H/V Line ±2mm/10m
Dot accuracy	Up Dot 2mm/10m Down Dot 3mm/10m
Mount Size	1/4"-20 & 5/8"-11
Power supply	4× "AA" (LR6)
Operating Temperature	-10°C to 50°C
Storage Temperature	-20°C to 70°C
